

DRIVE-ON LIFTS

GENERAL SERVICE RUNWAY LIFTS

ENGINEERED FOR CARS, TRUCKS
AND COMMERCIAL VEHICLES

Discover the competitive, exclusive features, lifting configurations, and available accessories that only Rotary offers!

Fit and lift whatever is driven on the road by easily pulling up onto the lift with confidence. Open front and open through designs allow service technicians to move freely around the vehicle. Taller rise heights mean less stooping below a beam structure. With available lift accessories you can handle the additional business that will come your way.

Do more work than just lift a vehicle.
Do it all with a certified Rotary lift in your shop.

SMO14N201Y
14,000 lbs. LIFTING CAPACITY

Double Your Productivity With Industry-Leading Lifts.

You know efficiency is everything on the shop floor. That's why you're looking for equipment you can depend on, equipment that will double your productivity and pay for itself in uptime. Our revolutionary industry-leading lifts are built with the highest quality materials on the market so you can relax and focus on what matters most.

Shown: SMO14U101YBL 14,000 lbs. capacity runway lift with optional rolling jacks

Rotary drive-on lifts make jobs easier all the way around.

For easier vehicle spotting you need a drive-on lift. Create significant value for your shop when it comes to increased efficiency for general maintenance and multi point inspections – especially when you add our Shockwave technology for rises and descents that are twice as fast.

The most expensive lift is the one that doesn't work.

You can trust the fact that no brand of lift performs better or longer than Rotary. A lower price doesn't necessarily mean you're getting a lift for less. Our lifts are investments that pay for themselves quickly and boost your business for years to come. Rotary lifts cost less to operate, have a consistent track record of uptime with lower repair costs and are manufactured with 100 years of legendary quality.

Rotary lifts are engineered, tested, and supported with pride in Madison, IN USA. Crafted by people who love what they do delivering their best work to you – our customer.

Choose the right lift for your shop.

Rotary Lift.

SM14 SERIES

14,000 LBS. CAPACITY RUNWAY LIFTS

ROTARY

BY ROTARY SOLUTIONS

WHEEL SERVICE EQUIPMENT

Rotary's line of premium equipment is manufactured to the highest standards of quality and durability to help you perform the job right the first time, every time.

ALIGNMENT SYSTEMS

Our advanced alignment systems help shops like yours provide efficient, precise, and consistent services.

TIRE CHANGERS

We offer one of the most comprehensive tire-changer lineups in the industry. Loaded with revolutionary, simple-use technology, our equipment ensures that the job is done right the first time, every time.

WHEEL BALANCERS

From value-priced to advanced, all-in-one laser-scanning solutions, our wheel balancers boost productivity so you and your techs can focus on what matters most.

ACCESSORIES

Our accessories are built with the highest quality materials on the market so that you can focus on what matters most to you: maximum performance and minimum downtime.

RUNWAY LIFT ACCESSORIES

We make the lifts.
Accessories make the lifts yours.

Maximum performance with minimum downtime with our genuine parts and accessories. Consult factory for proper lift applications.

Air / Utility Box includes two 110v electric outlets, air connection with filter, regulator, lubricator

Ramp Kits for drive-thru capability and low-profile vehicles

Air Operated Tire and Wheel Lifts with air hose and air tool connection

SPOTLINE™ Laser Kit helps center vehicles in bays quickly and accurately

TECH LIGHT™ LED Runway Lighting Kit / Four light wands for effective lighting

TECH LIGHT™ Line Light R / LED inspection hand lamp with top spot light

Oil Drain Pans include splash guard, drain valve and dust cap

Lock Light™ provides green light visual confirmation when lift is lowered to its locks

Removable Work Steps for lifts with slots on sides of runways / SM14 lifts only

Supercharge SM14 Series lifts with exclusive SHOCKWAVE™ power!

SHOCKWAVE™ equipped lifts are the fastest lifts in the world, accelerating productivity and increasing service orders per bay. Designed specifically for bays where service speed is essential.

Watch your productivity increase, the number of service orders increase and be shocked at the increase in revenue!

Shockwave™ equipped lifts feature:

- Spotline™ motion activated spotting laser. Center vehicles in bays accurately.
- Patented DC power system gives you an inexpensive and reliable operation while using two standard Group 24 batteries.†
- The built in battery charger uses 110v power, eliminating the need for expensive 220v wiring, and, if your shop loses power, SHOCKWAVE-equipped lifts keep on working.
